MGIS AWARDED THE UKIERI GRANT

Mahatma Gandhi International School has been awarded the UK India Education and Research Initiative (UKIERI) in the field of Vocational Training.

Both the Indian and UK government have confirmed funding for UKIERI and the programme aims to now deliver systemic change by reaching out to larger numbers. Through this venture, MGIS with its UK partner Dudley College, will provide modules for skill-based teacher training. For the next couple of months MGIS founders Anju Musafir and Dr. Pascal Chazot, along with senior MGIS faculty Dimple Joshi and Ravinder Kaur will be working intensively to develop multimedia based Teaching Modules. These modules will benefit more than 5000 teachers across India and the UK and will build a strong emphasis on active and experiential learning, which is the foundation of the MGIS teaching philosophy. It is a fantastic opportunity for MGIS to showcase its unique pedagogy and share it with other teachers across the world and contribute to the field of education.
